Glass Bottles with Caps

- Store or mix laboratory buffers, reagents, and chemicals
- Bottles are manufactured from Type III Soda-Lime glass that conforms to USPTYPE III standards
- White polypropylene screw caps are pre-attached to container, choice of 2 types
- Tamper evident strips & HAZCOM labels included

Caps

Poly-Vinyl Lining - excellent moisture barrier, suitable for a wide range of applications. Good chemical resistance against mild acids, alkalis, solvents, alcohols, oils and aqueous products. Not suitable for active hydrocarbons and bleaches.

Teflon® Faced Foamed PE Lining - ideal for analytical lab samples, high purity chemicals, strong acids & solvents. Excellent for environmental samples, pharmaceuticals and reagents.

A) Wide Mouth, Clear

- 125 - 4000 mL (4 - 130 oz)
- Largest bottle available
- Ready-to-use container

Usage: ideal for small to large volume storage, general use

B) Wide Mouth, Amber

- 30 - 1000 mL (1 - 32 oz)
- For light sensitive samples
- Easy removal of contents

Usage: ideal for storage of dry or solid powders

C) AC Round, Clear

- 30 - 500 mL (1 - 16 oz)
- Taller and narrower profile than a straight sided jar

Usage: ideal for wide range of applications

D) Boston Round, Clear

- 30 - 1000 mL (1 - 32 oz)
- Narrow mouth design

Usage: ideal for solvent, chemical and sample storage

E) Boston Round, Amber

- 30 - 1000 mL (1 - 32 oz)
- Narrow mouth design
- For light sensitive samples

Usage: ideal for solvent, chemical and sample storage
